Referral re:

I am referring Mstr Lucas Stone to you for dysphoria. He has a low self esteem and has begun to react to bullies at school. He reports to me the call him unpleasant things like "fat" and "ugly" and that he believe they are tellign him the truth.

This young man would benefit from psychology to discuss these and improve his mood and self esteem.

I am referring him under his attached MHCP for 6 sessions of psychology. I can provide further if you beive he woudl benefit from this. Please write to me towards the end of his treatment.

Thanks for your further assessment and care of Mstr Lucas Stone.

Yours
